MD-101T02: Managing Modern Desktops and Devices

Duration: 2 Days
Method: Instructor-Led Training (ILT) | Live Online Training

Certification: *Microsoft® 365 Certified: Modern Desktop Administrator Associate —* ***Exam 2 of 2:*** *MD-101 Managing Modern Desktops*

Course Description

As demand for organizations to enable workforces to be more mobile, a desktop administrator's role is really is no longer about just "desktop" management. With "Bring Your Own Device" (BYOD) becoming commonplace and the need for employees to access line of business apps on personal devices, the scope of desktop administration must include both desktop and mobile devices, regardless of ownership. During this course, participants will be introduced to key components of modern management and co-management strategies. They will examine what it takes to incorporate Microsoft Intune® into their organization and how to use it to manage modern desktops and devices. They will also learn about methods for deployment and management of apps and browser-based applications.

Target Audience

This course is intended for:

- IT Professionals who perform installation, configuration, general local management and maintenance of Windows 10 core services, and may also be familiar with enterprise scenarios and cloud-integrated services.

Prerequisites

To attend this course, candidates must have:

- Basic understanding of computer networks and hardware concepts.
- Basic understanding of OS and Application concepts.
- Experience with using the Windows® OS.
