MD-101T01: Deploying the Modern Desktop

Duration: 2 Days
Method: Instructor-Led Training (ILT) | Live Online Training

Certification: *Microsoft® 365 Certified: Modern Desktop Administrator Associate* — **Exam 2 of 2:** *MD-101 Managing Modern Desktops*

Course Description

As desktops have evolved, so have methods for deploying and updating them. In this course, participants will learn how to plan and implement an operating system deployment strategy. Additionally, this course will help them understand the various methods available, the scenarios they're suited for, as well as how to deploy Windows® using modern methods. This course will also cover planning and implementing an update strategy for Windows.

Target Audience

This course is intended for:
- IT Professionals who perform installation, configuration, general local management and maintenance of Windows 10 core services, and may also be familiar with enterprise scenarios and cloud-integrated services.

Prerequisites

To attend this course, candidates must have:
- Basic understanding of computer networks and hardware concepts.
- Basic understanding of OS and Application concepts.
- Experience with using the Windows OS.
